		the multiplication (x), division (÷) and equals (=) sign. Solve problems involving multiplication and division, using materials, arrays, repeated addition, mental methods and multiplication and division facts, including problems in			
Science:	Living things and their habitats Understand that animals (including humans) and plants are living. Identify that most living things live in habitats to which they are suited and describe how different habitats provide for the basic needs of different kinds of animals and plants, and how they depend on one another	contexts.  Living things and their habitats Children will Understand what is meant by a food chain Understand that living things need other living things to survive. Investigate and learn that creating different microhabitats will encourage a variety of creatures To understand that microhabitats need to vary according to their inhabitants' needs Design a 'room' (microhabitat) of the bug hotel	Plants Observe and describe how seeds and bulbs grow into mature plants Find out and describe how plants need water, light and a suitable temperature to grow and stay healthy. Cross Curricular links with maths - Measurement, tables and graphs to collect information.		
Religious Education:	Creation- who made the world?	Incarnation Why does Christmas matter to Christians?	Gospel What is the good news that Jesus brings?
