

Russet newsletter – Term 6 Week 3

The children had a great week; tasting a range of foods from around the world, learning the story of Jack and the Beanstalk, focussing on addition and subtraction and of course, making something special for Father's Day.

This week

We will be thinking about reading and following instructions, in particular instructions for 'How to make a Beanstalk' and 'How to plant a bean'. In order to plant a bean we will need quite a few empty, clean jam jars. If you have any glass jars spare at home please can you bring them in for Tuesday – many thanks!

Please find attached a Home Learning Challenge for Jack and the Beanstalk, with a range of activities which you can try with your child at home.

In maths this week we will be continuing to think about subtraction and the different ways we can do it – counting back on a number line or counting back on our fingers. In science we will be starting to think about humans as animals and in particular our senses.

Year 1s – Phonics screening

As this was last week, please can the phonics packs be returned. Many thanks.

Pet Show this Saturday

Our Pet Show is at the end of the week on Saturday 22nd June. This is a special event in our school year and it would be great to see you all there if you can. Please get in touch with one of the FOCSS team if you can help - I know that FOCSS would appreciate it as it takes a lot of hard work to arrange this event. Looking forward to seeing you there!
