

Geography

The children will use atlases to locate where they live on a map of England. They will draw maps of the school's local area using symbols and compass points. The children will look at foods that are grown and produced locally.

Relationships, Social, Education

Similarities and Differences

The children will consider what makes them special and unique. They will investigate their different strengths and abilities.

Physical Education

Wednesday- Multi Skills

Friday - Dance

English

Text - Goldilocks and the Three bears by Lauren Child

The children will look at different versions of this traditional tale. They will write a sequel to the story where the characters meet a few years later.

Text - Send for a superhero by Michael Rosen

The children will create their own superheroes and write about their adventures saving the school from those who want to destroy it.

Maths

Addition and Subtraction

Measurement - Money

Multiplication and Division

Food and Farming - Our local area

Term 2 - Geography Focus

Religious Education

Incarnation - why does Christmas matter to Christians?

Science

Seasonal Change - children will explore different types of weather; how shadows are made; collect rainfall and make their own wind socks.

Computing

Creating Power Points
Internet safety

DT

Perfect pizzas - children will be investigating what a balanced diet is. They will design and create their own healthy pizzas.
